## *Memorandum*

---

**Date:** May 5, 2016

**Mayor Gray and Members of the Board:**

Submitted in accordance with the Local Government Budget and Fiscal Control Act, is the recommended annual budget for fiscal year 2017 for the Town of Wendell. The budget presents financial information summarized by major category for each departmental budget and outlines the operations of the Town. As mandated by State law, the budget is balanced and identifies methods of raising and spending funds for specific programs during the coming fiscal year.

The budget development process focuses on providing high quality services and moving toward meeting the goals of the Town Board and community in a fiscally responsible manner. The development of the budget was guided by the priorities established at the 2016 retreat. Priorities were influenced by the positive economic changes in the area resulting in an increased workload; desire to improve customer service, and efficiency and effectiveness through technology.

The proposed Budget for FY 2016-2017 as prepared is balanced at \$5,055,335 million with a tax rate of 51 cents per \$100 valuation. Wake County has determined the revenue neutral rate to be 47 cents per \$100 valuation. The recommended rate increase is due to the revaluation conducted in 2016 which found the value of most homes in Wendell have dropped in value since the 2008 valuation. The rate increase is proposed due to the Town's projected revenues falling short of funding needed to maintain the increased demand for services in the coming year. Although an increase to the tax rate is recommend, homeowners may see a reduction in Wendell tax assessments due to the decline in values of their existing homes. The current tax rate is insufficient due in part to the increased demands for service, facility, and infrastructure needs resulting from increased growth within the Town's planning jurisdiction. The General Assembly's elimination of the municipal privilege license tax, the passing of Tax Deferment Bill (HB 852) and the change in the sales tax distribution formula have made revenue projections less stable for a fast growing community such as Wendell.

FY 2017 will also see an increase in the debt service owed by the Town from \$130,000 in 2016 to \$175,500 in 2017. This will allow for the paving or resurfacing of 5.05 miles of streets within the corporate limits, repairs to the drainage system on Todd Street with the use of Powell Bill Funds. Improvements to Wendell Park, renovations to Town Hall, the purchase of equipment and vehicles, and the addition of a public works storage facility have added to the debt service of the Town.

The preliminary General Fund budget requests submitted by Town departments for FY 17 totaled \$1,190,351 million above projected revenues. Most requests included additional full time

staff, training, planning projects, salary increases for current employees. In order to stay within projected revenues, it would have been necessary to eliminate all employee expansion requests, reduce or eliminate salary increases, and cut un-mandated training. The initial response to balancing the budget included the elimination of capital purchases, with the exception of software for the finance department, and the reclassification of the current clerk position into two administrative support positions.

Overall, user fees are expected to remain relatively stable. Solid waste fees are not scheduled to be increased, and water/sewer rates will increase by 5% or approximately \$3 per month or \$36 per year.

Staff entertains questions and input into the budget process. The public hearing is scheduled for May 23, 2016.

## **BUDGET MESSAGE FOR FISCAL YEAR 2017**

### **Operating Budget**

Expansion items in the budget are directed towards implementing the projects approved in FY 2016. Highlights of the operating budget expansion requests and the goals they address are provided below. The costs of positions include salary, benefits, equipment, and ongoing charges including contracts for service such as Time Warner, Waste Industries, electrical, etc.

In order to maximize efficiency, three changes in Finance, Administration, and Planning are being made to improve the Town's ability to serve citizens. The restructuring will assist those making water bill payments, requesting information, and aid the planning department in processing the increase in permits related to development and land use. By taking the current Clerk position and reallocating the salary to a customer service representative and a part-time administrative support position, this would eliminate planning's reception duties, decrease wait time, and increase staff hours available to address more complex development applications while staffing the counter and assisting customers. This change will require that a current full-time employee be named Town Clerk. The conversion of the salary to a part-time administrative support position and customer service representative are designed to address customer service needs. Although revenues from permit activity are increasing, so are the total number of inspections, permits, quasi-judicial cases, and development reviews.

### **Transportation**

No expansion of service or increase in cost are projected for the Wendell/Zebulon Express during the FY 2017 Budget.

Wake County is considering a November 2016 referendum on a sales tax option to support transit, which would fund new bus service by municipal systems. However any change in service would not be made until FY 2018.

### **Infrastructure**

No major capital projects have been included for street and drainage improvements in FY 2017. Bids have been received for projects approved in FY 2016 and the Local Government Commission [LGC] has given its approval for the street and drainage projects to proceed. Construction will begin prior to the end of FY 2016; the first payment will be made in FY 2017.

### **Parks and Recreation**

With the receipt of the Parks and Recreation Trust Fund [PARTF] Grant, the Parks and Recreation Department will see construction activity underway by the first quarter of FY 2017. The cost and loan for the PARTF plan are currently underway by Landscape Architect Susan Hatchell. Bids will be reviewed and authorized by the Local Government Commission once received. With payments for PARTF improvements scheduled to begin in FY 2017, the

operating budget for the Parks and Recreation Department have held steady. Although Parks and Recreation had asked to move a maintenance position to a full-time track-out and special population position, funding will not permit at this time.

### **Police**

As the number of homes and businesses under construction increased, so has the workload for the police department. More than 100 new homes were constructed in 2015, that number is expected to double in calendar year 2016. An increase in development includes more individuals and families living and visiting Wendell. More activity within a defined area leads to the opportunity for more public service calls. The budget provides for advertising for an officer late fall and bringing that officer on staff after January 2017 and includes the recruitment of a second officer in the 4<sup>th</sup> quarter, providing for two officers in one calendar year.

### **IT**

The Town currently has one Information Technology Information Administrator who plans for, and reacts to breaches of networks and other devices. The IT Department is responsible for Town servers, security appliances, phone system, TV PegVault, 41 user accounts, 32 desktop computers, and 21 laptops. The position is on-call at all times and has limited backup. Staff continues to plan for future installation of fiber to serve the Town. The business model indicates that the network will pay for itself in reduced costs; however, the upfront cost for engineering and installation have delayed this effort.

Other than an increase in replacement computers, UDO (Municode) and financial software, the operating budget has remained consistent with that of FY 2016.

### **Public Works**

Public Works does an excellent job of maintaining the condition of the buildings and grounds, however over time major maintenance and renovation needs arise. For FY 16 and 17, facility improvements will be made to Town Hall, Park (PARTF) and at Public Works. No additional capital facility projects are planned for FY 2016. The increase in the base operating budget for public works includes a full-time salary that has been brought forth from Powell Bill and funds for mapping have been added to comply with Phase II Stormwater regulations.

One additional full-time public works specialist was requested but not included. In recognizing the need, part-time/seasonal workers have been included.

### **Economic Development**

No increases planned for FY 2016

### **Planning**

No increase in staff has been included. The restructuring of duties will relieve pressure for immediate assistance. With the monitoring of fees and workload, additional part-time assistance may be considered later in the fiscal year.

### **Utility Rates**

The utility capital budget was developed as a part of the City of Raleigh and Town of Wendell Merger Agreement. Water rates will increase by 5% in FY 2017 and are estimated to increase cost of \$3 per month per residence.

### **Other**

The budget includes \$1,000 to East Wake Education Foundation and \$2,000 to the Wendell Chamber for the Wendell Harvest Festival.

### **Public Comment**

As part of the budget process, the Town of Wendell seeks input from the public beyond the public hearing required by law. During the month of May, the public is invited to make suggestions through email, letters, voicemail, and a public hearing. Citizens can register their budget priorities by emailing Finance Director Butch Kay at [bkay@townofwendell.com](mailto:bkay@townofwendell.com) or by calling 919-365-1521. Feedback is also accepted via the Town's Facebook, [www.facebook.com/TownofWendell](http://www.facebook.com/TownofWendell) and the Town's Twitter feed, @WendellINC (include #TOWBudget). The budget public hearing will be held as part of the May 23, 2016 regular Town Board meeting; meeting begins at 7:00 p.m. and will be held at the **Wendell Community Center, 601 West Third Street, Activity Room B**. Comments must be received by Friday, May 20, 2016 to be compiled and shared with the Town Board of Commissioners for the May 23<sup>rd</sup> meeting. The Town Board of Commissioners may take action on the FY 17 budget at its Monday, June 13, 2016, Board meeting.

### **Summary**

In summary, this budget will move the Town further towards the Town's goals in a fiscally responsible manner. The production of the Budget is a collaborative effort by Town staff. Departments assess their needs and develop budget requests. The Finance Department provides analysis of the departmental requests and coordinates the production of the budget. The assistance and input by all departments has been invaluable.

Respectfully,

Teresa Piner  
Town Manager
